📁 Experience

Griflan Design

Lead Developer
June 2012 – Present

Worked remotely as the lead developer on full stack web projects for companies in the crypto, education, startup and other industries. Utilized javascript animation skills to bring an innovative edge and push the boundaries of web design. Built fully customizable content management systems in Wordpress for clients to have full ownership over their website content.

JLern Design

Owner / Designer / Developer
November 2008 – Present

Taking on a range of web related projects for clients across the country, as well as working with top creative agencies on a freelance basis. Responsibilities include creative concept development, layout design, and programming utilizing technologies such as HTML, Javascript, CSS, PHP. Agencies worked with include Grey, BBDO, Digitas, Leo Burnett. Brands worked on include M&M's, NBC, Campbell's, Cover Girl, NFL, Hertz.
Wilmington University

Adjunct Professor
September 2012 – December 2012

Taught a class on web design basics focusing on HTML, CSS and jQuery. Used real world projects to demonstrate key practices and worked closely with students to produce their own website.

Power Design

Interactive Specialist / Designer
August 2003 – January 2008

Lead role on all Flash projects. Complete interactive project development from design to coding (HTML, Flash, PHP, MySQL). Worked directly with clients and participated in pitches. Supervisedweb projects and provided technical assistance. Clients include: Citi, GSK, Comedy Central, Comcast.
